ECOPROFIT[®] Club Augsburg 2022/2023

ÖKOPROFIT Stadt Augsburg

() swa

Sustainable together

Stadtwerke Augsburg (swa) is a municipal utility company. The company group is currently comprised of eleven limited liability companies under the umbrella of Stadtwerke Augsburg Holding GmbH. With 2,215 employees, swa is the third largest municipal utility company in Bavaria. They supply around 350,000 people in Augsburg and the region with electricity,

natural gas, district heating, drinking water, telecommunications and mobility services. Main functions include supplying energy, operating generation plants, providing energy services and creating infrastructure networks for various resources.Furthermore the swa ensures mobility through local public transportation and modern means such as car sharing and ride sharing.

- Sum of measures with amortization in less than a year
- Sum of measures with amortization in 1 to 3 years
- Sum of measures with amortization in over 3 years
- Sum of measures with inestimable costs
- Sum of measures with additional costs

What is ÖKOPROFIT[®]?

ECOPROFIT® (Ecological PROject For Integrated Envorionmental Technology) is a project of the city of Augsburg. Continual cooperation partners are the Bavarian State Office for Environment, the Swabian Chamber of Industry and Commerce and the association, KUMAS, the environmental competency center e.V. The city of Augsburg supports companies through ECOPROFIT® in improving their corporate environmental protection measures. With the support of the consulting company Arqum GmbH, the participating companies develop 47 practical measures, which not only reduce the environmental impact, but also costs. The ECOPROFIT® measures contribute to sustainable busi-

nesses. ECOPROFIT® is therefore an important project for environmental and climate protection. These were the ÖKOPROFIT[®] Club members in 2022/2023:
